**Notes to Editors:**

- The World Steel Association (worldsteel) is one of the largest and most dynamic industry associations in the world, with members in every major steel-producing country. worldsteel represents steel producers, national and regional steel industry associations, and steel research institutes. Members represent around 85% of global steel production.
- For antitrust reasons worldsteel no longer produces a monthly global capacity utilisation ratio. Information on capacity can be found on the [OECD website](#).
